Highlights

Even light distribution

With the customized optics in Philips EyeCare desk lamps, you get light that is diffused and evenly distributed across your workspace. This reduces uneven lighting or dazzle, which normally leads to tired eyes and general eye fatigue.

Reduces glare and eyestrain

The combination of customised optics and high-quality cool white LED light of the this Philips EyeCare desk lamp, helps to reduce glare and eye strain. Comfortable and with no visible flickering, it helps to support optimal eye comfort.

Cool daylight

Various findings have pointed out that a cool daylight color temperature of 5500K and up to 1000 lux

promotes concentration by maintaining energy levels and alertness with natural light levels.

Gradual touch dimming

Fully adjustable light levels with gradual touch dimming ensure you'll always be able to set a light level that is kind to your eyes and perfect for the task at hand. Gradual dimming also ensures a smooth transition between different light levels, allowing your eyes to adjust more naturally.

Built-in USB port

For added convenience, this Philips EyeCare desk lamp comes with built-in USB port, enabling you to charge your smartphones or other devices while you work.

Extended reach

The ergonomic and flexible arm of this Philips EyeCare desk lamp is designed to offer extended reach for maximum reading comfort. Effortless to position, it means you won't have to bend or move awkwardly around your desk to get your lighting focused correctly on your workspace.
