Ionic

HP8280

## Preserve your hair's natural hydration

For a healthy shine

Moisture Protect sensor uses infrared technology to diagnose your hair and adapts the temperature to preserve natural hydration.

### **Beautifully styled hair**

- Ionic conditioning prevents static for frizz free shiny hair

### **Ease of use**

- Cool Shot to set your style
- Six flexible speed and temperature settings for full control

### **Caring technology**

- Perfect heat control with innovative sensor
- Protection from overheating

### **MoistureProtect Technology**

- Perfect moisture protection with exclusive sensor

**PHILIPS**

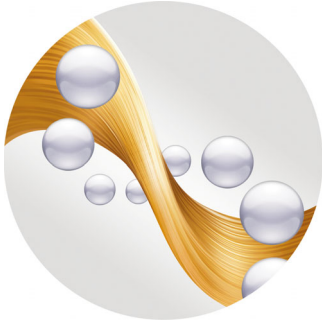

## Highlights

### Cool Shot

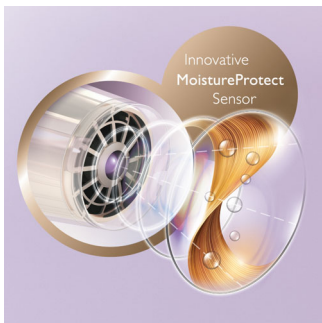

The Cool Shot button provides an intense burst of cool air. It is used after styling to finish and set the style.

### Ionic conditioning

Charged negative ions eliminate static, condition the hair and smooth down the hair cuticles to intensify the hair's shine and glossiness. The result is hair that is smooth, shiny and frizz-free.

### MoistureProtect Sensor

The MoistureProtect Sensor, measures the hair temperature and automatically switches down the temperature, once the hair is dry, protecting the hair from overheating.

### Six speed and heat settings

Easily adjustable for complete control and perfect styling.

### ThermoProtect temperature

The ThermoProtect temperature provides the optimal drying temperature and gives additional protection from overheating the hair. With the same powerful airflow, you can get the best results in a caring way.

### MoistureProtect Technology

Uses infrared technology to diagnose your hair and adapts the temperature to preserve its natural hydration.

## Specifications

### Technical specifications

- Wattage: 2100-2300W W
- Motor: DC
- Cord length: 2.5 m
- 120km/h Drying speed
- Dual Voltage: No
- Voltage: 220-240 V

### Features

- Cool Shot
- 6 temperature settings

### Service

- 2-year worldwide guarantee

### Caring technologies

- Ionic Care
- Moisture Protect

### Accessories

- Nozzle: Diffuser
