# Highlights

## 40 mm speaker driver

The 40 mm speaker driver is made of a composite mylar material for a highly sensitive yet powerful element that delivers sound without audible distortion.

## Neodymium magnet

Neodymium is the best material for producing a strong magnetic field for greater sensitivity in a voice coil, better bass response and higher overall sound quality.

## Ultra-lightweight design

The slim, lightweight stainless steel headband is so light you'll hardly notice you're wearing it.

## FloatingCushion

The newly innovated FloatingCushion design allows for full multi-directional, auto-adjustment of the cushions, without the need of the traditional C-hinge construction. This results in a seamless design, which ensure optimum stability by applying an evenly distributed pressure force onto the user's head and ears. Therefore creating a strong ownable story with regards to comfort and fit.

## Super-soft ear cushions

The ear cushions are very soft, and enclose the speakers around the ears to create great sound. With very little pressure on the ears, you can use the headphones comfortably for long periods.

## 1.2m cable

The ideal cable length to give you the freedom to put your audio device where you want.

## Cleverly compact design

Easy-to-fold design is compact enough to take your music anywhere

## 24k Gold-plated plug

Rest assured that the precious metal gold finishing on the plug will give you a more reliable connection for better quality audio.
