38mm thermo brush

The thermo brush has an extra wide diameter of 38mm. The width of the barrel makes it the perfect styling tool for creating smooth styles and waves.

800W

This 800W airstyler creates the optimum level of airflow and gentle drying power, for beautiful results every day.

Cool air setting

A cool air setting allows you to dry hair at relatively low temperature to minimize damage, which is suitable for especially fine, dry and damaged hair. And it is a perfect setting for the hot summer season!

Easy storage hook

The rubberised hook is located at the base of the handle and provides another storage

option, particularly convenient for use in the home or when staying at a hotel.

Narrow concentrator

The concentrator of the hair dryer works by focusing the flow of air through the opening onto specific areas. This results in precise styling and is great for touch ups or to finish a hair style.

Paddle Straightening Brush

With the innovative Paddle Straightening Brush, attached to the handle, you can create beautiful naturally straight looking hair, without damage.

Retractable bristle brush

This easy to use airstyler is both a styling brush and curler in one. The bristles retract into the brush at the touch of a button, so you can easily slide the styler out of your hair. What's left is a beautiful bouncy curl.
